

# NSR AB

SynFerm webinar

June 19th 2025

# NSR – North Scania Waste Company

- Owned by 6 municipalities
- Founded in 1982
- 272,000 inhabitants
- 70 000 customers
- Empties 4,7 million bins a year

# Key facts

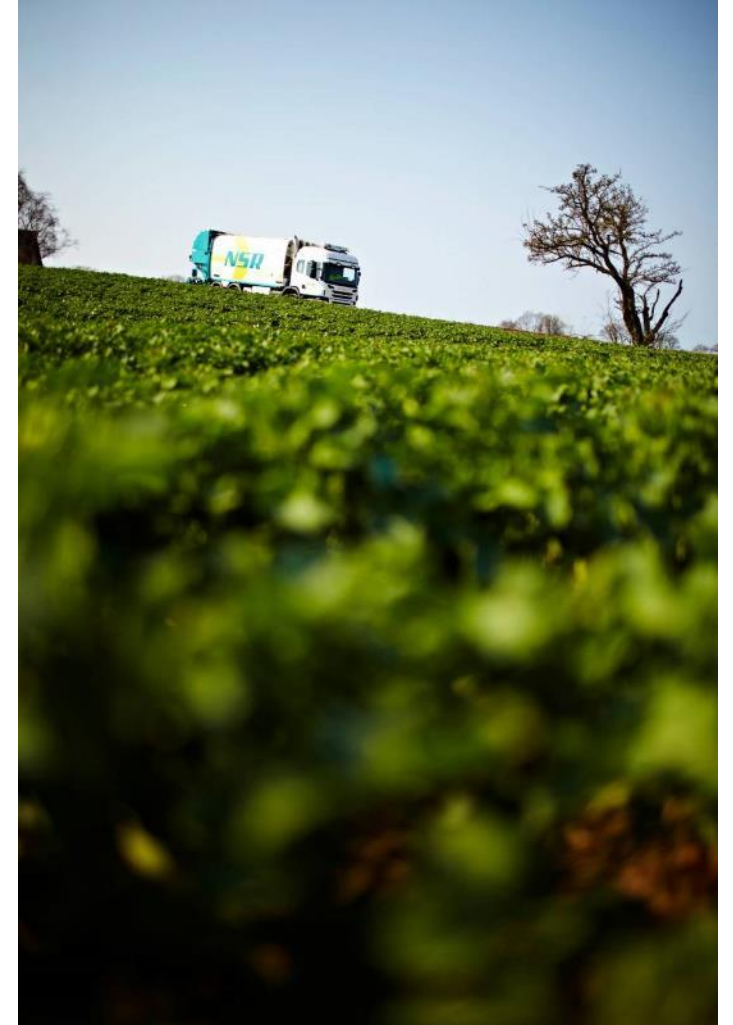

- Thomas Falkstrand, CEO
- Around 240 employees
- Head office in Helsingborg
- 9 facilities in the region

# Our business concept

“In the pursuit of a sustainable society where waste is minimized, we collect the region’s residual materials and refine them into valuable resources.

We do this in collaboration with others, aiming for better solutions tomorrow than there are today.”

# Curbside collection

**ELECTRONIC  
WASTE**

**COLORED GLASS  
PACKAGING**

**CLEAR GLASS  
PACKAGING**

**PLASTIC  
PACKAGING**

**METAL  
PACKAGING**

**GARDEN  
WASTE**

**NEWSPAPERS**

**ORGANIC  
WASTE**

**BULKY  
WASTE**

**RESIDUAL  
WASTE**

# Biochar for a greener region

- A biochar plant in Helsingborg
- Garden waste is converted into biochar
- Produces climate-neutral district heating
- Binds carbon dioxide and reduces global warming
- Good soil improver

# Our interest in the SynFerm-project

- Biochar plant that produces syngas, which is burned in an E-flox burner.
- Lots of incoming woody biomass to our sites (potential raw material supplier)
- We are always looking for opportunities to take part in new projects

**Thank you!**
